

# SparkerBM, Software for freelancer and individual businesses, Offices and stores

We launched [Sparkerbm App](#) by taking the motive to help your business to grow and delight your customer by sharing colourful unique Digital receipts which in image and text formats you can share everywhere in one click. We always think about how business should have to grow and what tools and software needs to grow businesses. Sparkerbm software developed by developer Balaji Murumbe. He has a passion to help businesses. Sparkerbm actually has all features it needs like **different types receipts** like

- Paid Receipts , You can share it if your customer paid full amount after purchasing goods and services.
- Unpaid receipts, You can share unpaid receipts when your customer actually purchased something but not paid. He said I will pay you later , and that this unpaid receipt is very helpful for your business.
- Payment Request receipts, You can share payment Request receipts when your customer purchased goods and services and you have to demand money from them then show them bill as payment request.

- Half paid receipts, This is a very helpful type of receipt. Actually, when your customer purchases goods and services but he doesn't have a sufficient amount to pay then you can share half paid receipts as proof of payment. This will be very helpful for both service provider and client or customer.

This is the power of sparkerbmApp Receipt software. You can use it everywhere like in browsers, computers and Mobile phones. It's very flexible and doesn't have tension about set-up and confusing settings. Our software App has all set what you require and less is always best. Let's focus on your business and serve your customer.

We assure you of the best service and support.
